

# SecureCloud 2010 Sponsorship Program

## Event Information

SecureCloud 2010: [www.cloudsecurityalliance.org/sc2010.html](http://www.cloudsecurityalliance.org/sc2010.html)

March 16-17, 2010, Barcelona, Spain

Expected attendance: 250-300. We expect a mixture of business, technical, C-level mgt and government security professionals from throughout Europe to attend this event

SecureCloud 2010 is a premier educational and networking event hosted by the European Network and Information Security Agency, the Cloud Security Alliance and ISACA, three of the leading organizations shaping the future of Cloud Computing Security. It is the first event to focus specifically on state of the art practices to promote security, privacy and trust within cloud computing from technical, assurance and governance perspectives. This event is a unique opportunity not only to learn, but to make important global contacts and participate in interactive strategy sessions

SecureCloud 2010 will feature presentations by thought leaders from industry, academia and government, including keynote speeches by Dave Cullinane, CISO at eBay, Inc., and Chairman of the Board of the CSA, and Dr Udo Helmbrecht, Executive Director of ENISA.

The SecureCloud 2010 program will feature two tracks:

Track One: Legal, Assurance & Compliance. Topics include provider & professional certifications, standards, governance frameworks, breach reporting, international regulations, legal impacts and many more.

Track Two: Security & Privacy. Topics include virtualisation, identity and access management, encryption, key management, virtual private clouds and many more.
