

# STAR Certificate

## Registry Entry Form

The information below is provided as a companion to the CSA STAR Certificate.

**Client Name**

**Client URL**

### Client Organization Description

<p>Oracle Cloud Infrastructure helps organizations facilitate their transition to the cloud by offering a valuable collection of cloud resources and offer the complete services customers need to build innovative cloud applications. The company has its headquarters in Seattle, Washington. Oracle Cloud Infrastructure is a platform of cloud services that enable the customer to build and run a wide range of applications in a highly available environment.</p>

### Certificate Scope

The scope of the STAR Certification is aligned with the scope of the ISO/IEC 27001:2022 information security management system (ISMS) for production engineering (PE), including international deployments of Software as a Service (SaaS). PE supports the SaaS offerings on Gen 2, also known as Oracle Cloud Infrastructure (OCI) and SaaS services Human Capital Management (HCM) and Enterprise Performance Management (EPM) for UK Gov Cloud on Gen 1, also known as Oracle Cloud Infrastructure Classic (OCI-C). The ISMS is certified in accordance with the Statement of Applicability version 6 and in alignment with the control set in ISO/IEC 27017:2015 (ISO 27017) and ISO/IEC 27018:2019 (ISO 27018).
